

Introducing the ESU-110 Electrosurgical Generator

THE DEVELOPMENT OF CERVICAL CANCER

Typical timespan from HPV infection to cancer: 10-30 years

Cervical cancer can often be found early, and sometimes even prevented entirely by early screening and prevention treatment. If detected early, cervical cancer is one of the most successfully treatable cancers. *Ref: Screen-and-Treat Cervical Cancer Prevention Programmes: Groesbeck Parham, MD, African Centre of Excellence for Women's Cancer Control.*

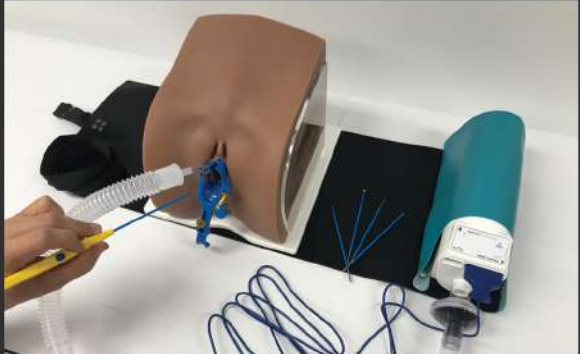

ESU-110 Electrosurgical Generator

The Cure Medical ESU-110 Electrosurgical Generator is designed and manufactured to meet the highest performance and safety standards for electrosurgery while maintaining a simple user interface and small profile for easy of use and portability

Specifications:

- Dimensions and Weight:
- Width 3.2" (8 cm)
- Height 4.3" (11 cm)
- Depth 9.6" (24.5 cm)
- Weight 11oz. (240 g)

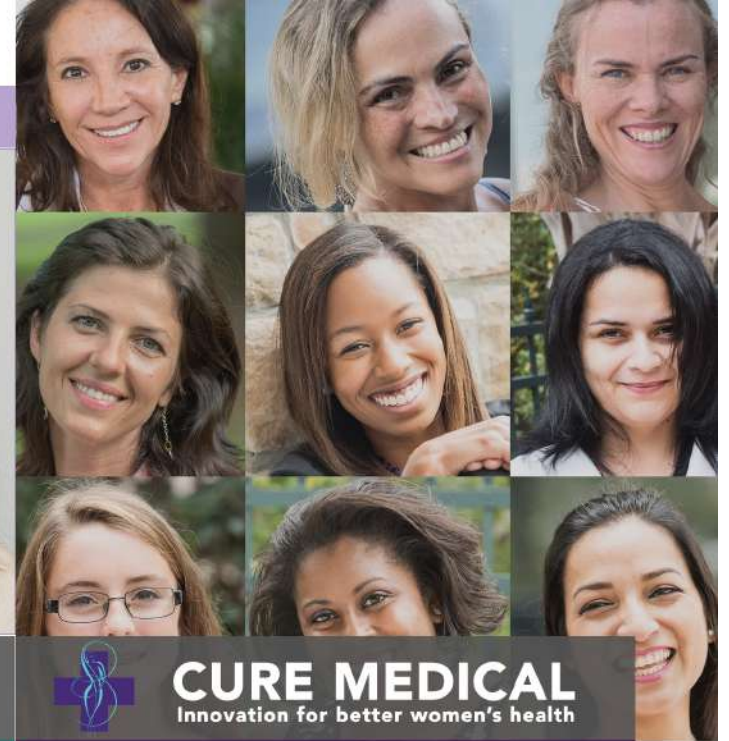

ESU-110 Electrosurgical Generator Easy. Effective. Effortless.

- FDA 510(k) Cleared #K133273
- Low-cost and affordable
- Portable and lightweight design(Rechargeable Li-ion Batteries)
- Cut and coagulation functions
- Integrated smoke evacuation system
- Isolated from ground
- Battery-powered with no tether wires or cables required to connect probe to device
- No external power supply required for treatment
- Visual and audible indicators

About Cure Medical

Cure Medical is a small business venture dedicated to providing cost-effective and reliable medical devices for women's healthcare.

Our units are designed to be easy to use, single-purpose, while maintaining high standards for safety and effectiveness.

CURE MEDICAL
Innovation for better women's health

Caring for life
GIVING HOPE

Cure Medical in partnership with Liger Medical is focused on providing cutting edge medical equipment and solutions for the prevention and treatment of cervical cancer.

www.curemedicalglobal.com

The design of our unit is based on the World Health Organization's guidelines and recommendations for fighting the growing epidemics of cervical cancer and HIV/AIDS.

We are also exploring other opportunities to expand our product lines to aid in other specific medical demands that are existent or emerging.
